Experience

IT Intern – Askari Bank

July 2025 – Present

Worked in the IT department at the IT Hub Office, supporting internal systems, assisting with software maintenance, and gaining exposure to enterprise tools used in banking operations.

Projects

Dynamic Portfolio Website – ASP.NET Core MVC 8, Bootstrap 5, SQL Server

Developed a personal portfolio web app with an interactive admin dashboard to manage services, skills, projects, contact forms, and user roles.

CodeX – ASP.NET Core 8, Entity Framework, SQL Server

Built a content management platform offering free code snippets, tutorials, cheat sheets, developer notes, and projects for learners.

Blog Website – ASP.NET Core 8, Identity, SQL Server

Implemented a full-featured blogging system with user registration, authentication, post management, and profile editing functionalities.

Online Job Portal – ASP.NET, SQL Server

Designed a job application portal with a resume builder for users and a job posting/admin control panel for recruiters.

Business Management System – ASP.NET, SQL Server, Crystal Reports

Engineered a comprehensive desktop and web-based ERP solution to handle sales, purchases, ledgers, invoicing, stock, and trial balances.

School Management System – ASP.NET, SQL Server, Crystal Reports

Created a multi-module platform to manage students, staff, payroll, results, attendance, and academic reports.

File Monitor System – C#, WinForms

Built a desktop monitoring tool for startup tracking, USB port control, drive activity logging, and historical browser/process review.
